

Children In The Salon

We love children. Between us all at Glamazon Beauty we have a few But, in the beauty salon environment they can create two key problems for us and we want to share them with you because it's important that you don't think we are just being meany-bums and it's not an easy topic to approach.

Firstly, there is the noise.

Babies are unpredictable and youngsters get bored. It's completely understandable and we expect no less.

But, some clients in the salon may be in for a relaxing treatment.

Perhaps they have been given a voucher, perhaps they have saved up their pennies to treat themselves, and, if you've ever experienced a facial or massage you'll know how relaxing they can be (many-a-time people nod off half way through).

It's not so relaxing though if there are loud noises coming from another part of the salon so may we ask you not to bring children with you under the age of 11 for treatments more than 30 mins long.

If you are struggling for child care, we will be happy to help you out and arrange a safe room for your appointment, this must be arranged prior to your appointment.

Secondly, there is health and safety

We won't bore you about red tape, procedures and paper work; but needless to say we take health and safety seriously.

With children in the salon our therapist's hearts are often going ten-to-the-dozen keeping an eye on children – especially when toxic chemicals and UV lights are on our nail desks, Hot waxing in our treatment rooms.

There, We Said It

We want our salon to appeal to as many people as possible.

Anyway, we've got it off our chests and we hope you understand.
